Bangkok, Thailand

PROFESSIONAL SUMMARY

Backend Developer with 4+ years of experience building APIs and backend services for healthcare, PDPA-related solutions, document management systems, and user management platforms. Strong background in FastAPI, Node.js, TypeScript, MongoDB, AWS, and system design, with hands-on experience in API architecture, database planning, troubleshooting, and cross-functional collaboration.

EXPERIENCE

Backend Developer | Security Pitch

Full-time | Sep 2021 – Present | Bangkok, Thailand

- Develop APIs using the most suitable technologies and frameworks for each project.
- Collaborate closely with business analysts to understand client requirements, assess feasibility, and identify potential risks.
- Work across multiple domains, including healthcare platforms, PDPA management solutions, document management systems for government, and user management systems.
- Design API structures and plan database architectures to support new features and scalable system growth.
- Troubleshoot and resolve production issues, and join client meetings when technical input is required.

Backend Developer | Hytexts Interactive Limited

Part-time | May 2021 – Aug 2021 | Bangkok, Thailand

- Built APIs for an online library project using TypeScript, Node.js, and AWS.
- Fixed API-related bugs and supported ongoing feature delivery.
- Worked with cross-functional teams to ensure APIs matched project requirements.

Internship Trainee | Arthur Southeast Asia

Internship | Nov 2020 – Mar 2021 | Bangkok, Thailand

- Contributed to microservices related to search functionality using Node.js and Elasticsearch.

SELECTED PROJECTS

PDPA Management: Supported backend development for privacy and consent-related workflows.

Healthsphere: Worked on healthcare-related backend services and integrations.

User Management System: Built and maintained backend services for authentication, user roles, and administration.

Document Management Systems for Government: Developed APIs and backend logic for document processing and management.

EDUCATION

Rajamangala University of Technology Krungthep

Bachelor of Science in Computer Science

GPA: 3.45

LANGUAGES

Thai: Native

English: Working proficiency in reading and writing; able to communicate effectively with support tools when needed.
